

CHANGING CHANNELS 18

Headaches, no doubt, originated deep in the Stone Age —

They carried bows and arrows and wore shell amulets, and said they lived by hunting wild pigs and harvesting wild fruits and nuts. They had made a clearing in the dense jungle and erected pens for holding captured pigs. and yogurt; nuts, peanut butter; hot fresh breads, raised coffeecakes and doughnuts; pods of broad beans; foods containing monosodium glutamate; onions, canned figs, citruses, bananas, pizza, pork, excessive tea, coffee, colas; avocado; chicken livers; all alcoholic beverages.

There is nothing wrong with hairy armpits or hairy legs on women. Shaving these parts is a barbaric social custom practiced in certain parts of the world, with the United States the worst offender.

That new program to respond to what a special analysis called Soviet "offensive" capabilities as in early man clunking his fellow on the noggin. And besides being elusively painful, specialists have found that a headache can be a handy — albeit unhealthy — tool for some people at some time Do you defend your lover when he or she is criticized? Are you increasingly interested in forming a family? Will you try to learn all kinds of games in order to go along with your lover's hobbies? Do you suddenly feel that love and poetry are closely related?"
